LEGAL INTERN – CONTRACTUAL LAW

Laine Neural Network SA is a LegalTech company developing an international terminal that automates legal drafting through generative AI and machine learning, aimed at connecting end-users with licensed lawyers.

We are looking for a talented Legal Intern with a strong interest in contractual law and general obligation law to be part of our growing team in Geneva.

KEY RESPONSIBILITIES:

- Assist with legal research in contractual law and general obligation law.
- Assist with drafting and analysis of legal documents
- Provide insights and recommendations based on legal research findings
- The occupation will be between 40% and 60% of the working time (possibility to increase working time in June-August)

ESSENTIAL QUALIFICATIONS:

- Final Bachelor's in Swiss Law ideally pursuing a and Master's in Law
- Strong interest in contractual law and general obligation law
- Strong drafting skills, precise and methodical approach
- Proficiency in Microsoft Word
- Advanced fluency in English

PREFERRED (OPTIONAL) QUALIFICATIONS:

- Experience in Legal Research
- Experience in AI, Tech, or LegalTech companies
- Familiarity with legal drafting automation tools

Successful candidates must be willing to learn further and develop their legal knowledge and soft skills, work with a team based in Geneva, Switzerland; Ghent, Belgium, and Dubai, UAE. They must be proactive and have a 'can-do' attitude. We are looking for good team players. If you have an interest in the intersection of law, technology, and AI, and meet the criteria above, we invite you to apply.

Please send your application to Dominique Lecocq and Mélanie Jungo at
